

January 18, 2026: On the Interference With and Deletion of My Work Product

This is a factual recording to document that my work on Sign 47 has been deleted twice now as I continue to work my way through each of the signs.

This is what I have been experiencing for years now. I have to 'lock' my files on my computer and print documents in order to ensure that my work on this important task is not continuously disrupted and destroyed by the demon that haunts Donald Trump and his team of evil minions.

I am recording this information for everyone to see what it is that Donald Trump and the American government are doing at this time.

Everything that I am doing now is being intentionally disrupted by a team of evil criminals that are hiding inside of the United States government.

This is absolutely a psychological war being waged against me, inside of my home, from the office of the President to my office in San Antonio, Texas.

Donald Trump, Elon Musk, Freemasons of the world: YOU ARE PURE SHIT - LITERAL SHIT. FUCK YOU ALL. The lengths that you all go to disrupt my life each and every day is absolutely, without a doubt, PATHETIC.

You are the worst group of scum to ever walk on earth.

Seriously, get the fuck out of my home.
